

CL2 duo Series

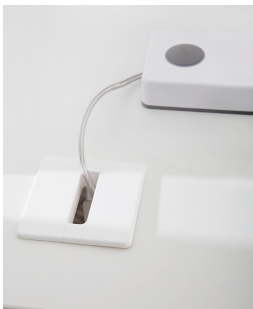

The trend towards open structures continues. Team workstations that simultaneously combine the advantages of an ergonomic sit-stand desks are therefore in demand. The **CL2 Duo series** was developed from the **CL2 series** of work desks in the sense of a platform strategy. Thanks to its table frame, the new **CL2 Duo series** is characterized by high stability combined with low resource consumption. The base frame offers great legroom and is therefore predestined as a bench solution.

Product features

- Height adjustment range: 650 – 1,270 mm
- Lifting range: 620 mm
- Maximum load: 100 kg (incl. table top, plate frame and attachments)
- Lifting speed (at 80 kg load incl. table top): 50 mm/sec.
- Noise level: ≤ 42 dB
- Output power of the control system: 280 VA
- Standby power / consumption: < 0.1 W
- Supply voltage: 230 V / 50 – 60 Hz

Electrification

Electrification options

- Sliding table top with brush seal on the rear edge of the desk
- Fixed table top with hinged cable tray
- Netbase: For direct, convenient access to power and data sockets with brush for dust seal and fixing the cables (only with fixed table top)

The central fixed cable channel enables intelligent cable management and neat cable routing and electrification. Multiple desks can be connected to each other and the connection to floor tank or parapet is easy. Electromotive work desks features sliding top for easy access to power and data, and ride-on cable channel.

Visual and acoustic shielding can be provided by **paravento screen** or **ophelis nest**.
