Partitioning system paravento hub

paravento hub allows areas for a variety of purposes to be created within the office landscape: Spaces to withdraw for meetings, think tanks, places for making phone calls, wardrobes or service points. The whole textile enclosure is pleasantly homely and can also be used to set colour accents.

paravento hub takes into account the noise insulation requirements in open spaces – both on the inside and outside. The paravento hub modules allow office space to be split into areas for specific functions, while at the same time creating a productive working environment. In combination with docks, hub modules can be realised as double or quadruple compartments. They can be fitted with tables and power outlets.

Product features

- Provides a comprehensive solution in one system to implement meeting places, retreat spaces, or shared functional areas:
  - Communication compartments in open space
  - Wardrobes
  - Retreat places for temporary work at sitting or standing height, as well as think tanks
  - Phone booths
  - Functional areas such as printer zones or pickup garages
- The selected large radius of the ending elements determines the design
- The joints are almost invisible thanks to the corner segments made in one piece
- Easy assembly using keyhole connector
- Wall thickness 40 mm
- Basic and Premium Acoustics
- Two heights: 1472 mm (4 FH) and 1830 mm (5 FH)
