

Partitioning system paravento

paravento is an integrated space division system. The basic idea is the combination of technical functions with the creation of cosy room structures.

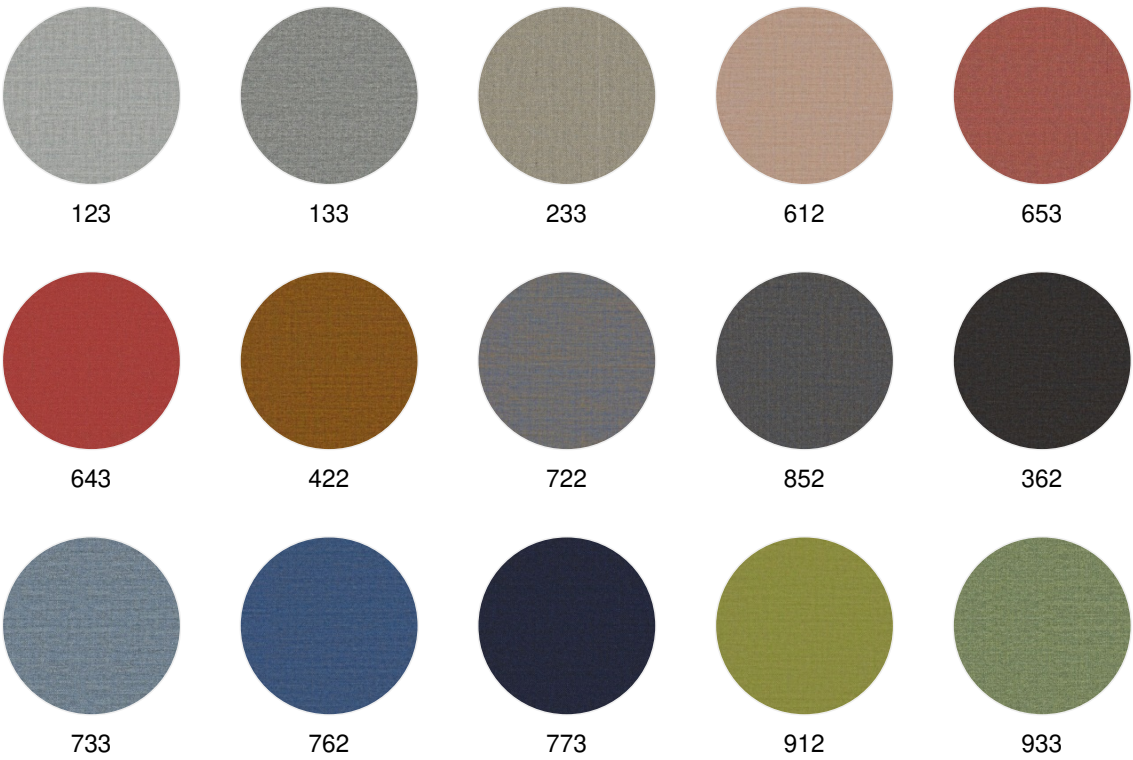

paravento structures rooms, serves as shielding, but also creates spaces for retreat, storing clothes or making phone calls. Individual elements are combined, thereby creating structures and rooms. In the open space, for example, retreat areas are defined in which individual employees and teams can work and communicate in a concentrated, acoustically and optically shielded manner. The system is available in two variants: S and M. The versions differ in their thickness and function: S purely as shielding, M with the option of organisation and acoustic dampening effect.

Product features

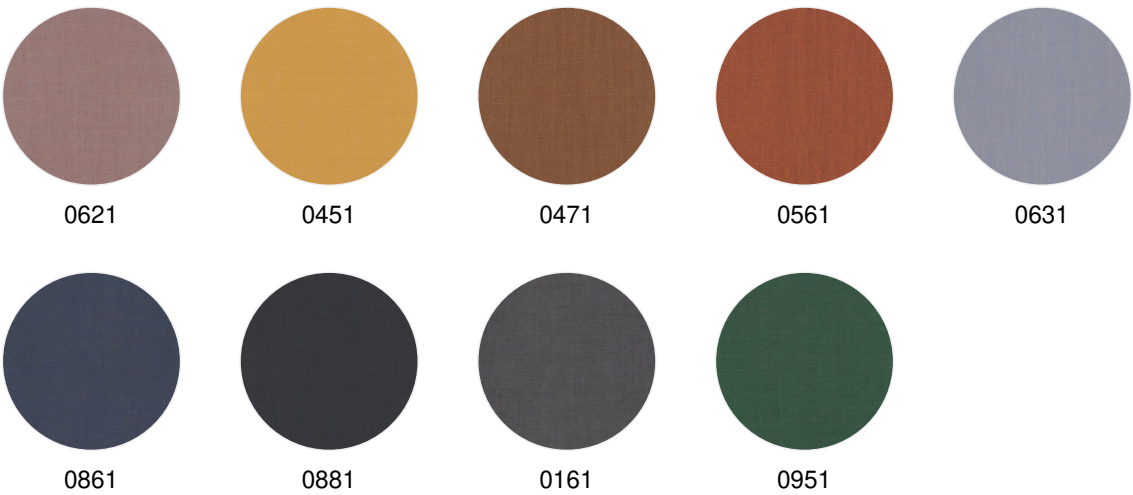

- Offers a comprehensive solution for acoustics, shielding, organisation and cabling
- The selected radius determines the layout
- Completely concealed organisation rail
- Optically consistent solution for all applications:
 - Free-standing as single and combination elements (floor screen)
 - At the table, floor-standing (floor screen)
 - On / behind the table (paravento screen)
 - Ceiling-mounted (paravento air)
 - Wall-mounted (paravento wall)
 - Pre-configured elements for function modules such as phone booths, think tanks, cubes, service points, etc. (paravento hub)
- System components – versions with matching design:
 - S = Slim, 20 mm thickness – visual shielding only
 - M = Medium, 40 mm thickness – organisational, add-ons, acoustically effective
- Options depending on type:
 - Basic or premium acoustics
 - With or without organisation rail
 - 2 x radius, 1 x radius, no radius
 - Additional elements such as boards or pen trays
