

New: Series CL2 mobil

New mobile sit-stand meeting tables: CL2 mobil series

Varying teams, changing projects, and the challenge of constantly repurposing rooms as needed: With the CL2 mobil series, ophelis offers sit-stand tables that can be placed exactly where they are needed.

The CL2 series of electromotive sit-stand tables has been further developed and equipped with castors. Thanks to the reversible cable, they can be easily brought to the network and raised and lowered at any time.

Product features

- Mobile electromotive sit-stand table, configurable as project table or meeting table
- As project table with fold-down cable duct, triple socket and powerdot for power and charging USB at the table
- Spiral cable for connecting the table to power: length: 1 m, extendable up to 4 m, hook for spiral cable
- Table can be equipped with ophelis nest, optional collision sensor recommended
- As a meeting table – without electrification on the table, without cable duct – to be occupied from both sides
- Optional external electrification with MOV:E (battery solution)
- T-foot with slight curvature, high stability, foot shape square tube
- Equipped with 50 mm casters, 2 × braked, 2 × unbraked
- Height adjustment range: 3-column: 650 mm – 1250 mm
- Table widths: 1400 / 1600 / 1800 mm
- table depths: 700 / 800 / 900 mm
- table top thickness: 19 / 25 mm

Electrification

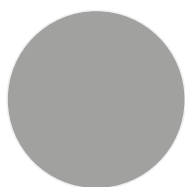

- Spiral cable for connecting the table to power: length: 1 m, extendable up to 4 m, hook for spiral cable.
- Vertical steel cable duct for invisible cable routing on the leg
- As a project table Powerdot for power and charge USB on the table and fold-down cable duct with triple socket
- Optional external electrification with MOV:E (battery solution)
