

CN Series Sitting/standing table with back partition

Product features

- Ergonomic worktable thanks to electrical height-adjustment
- Convenient access to the electrification due to sliding table top with recessed brush seal for cable routing over the entire width of the table
- Equipped with height adjustable back partition for shielding and organisability
- Available in various widths (1600 bis 2000 mm) and in three depths (800, 900, and 1000 mm) for individualised needs-based adjustment
- Available in two different height-adjustment spans (680 – 1180 mm and 650 – 1270 mm)
- Comfortable cablemanagement due to vertical and horizontal cable channel and CPU-holder
- Optional equipment: sensor- and memorycontrol

Electrification

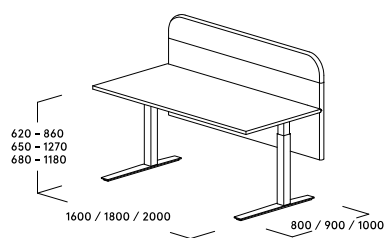

Electrification options

- Sliding table top with brush seal on the rear edge of the desk
- Fixed table top with hinged cable tray
- Convenient electrification with organization rail at the rear end of the table top for tool-free mounting of additive elements over the entire width of the table while maintaining the sliding table top function and convenient access to the cable channel
- Smart cable management due to flexible cable chain or cable stocking to guide the cables up to standing height as well as steel cable tray for invisible cable routing on the table leg; handling: easily removable without tools through clip fastening
- Netbase: For direct, convenient access to power and data sockets with brush for dust seal and fixing the cables (only with fixed table top)
- Netbox: Sockets are accessible to the user directly at the table – can be individually equipped with power and data sockets
- Cable outlets: Round or square to match the shape of table base (only with fixed table top), can also be attached to the rear edge of the table (sliding top and fixed table top)
