

Benches

Benches

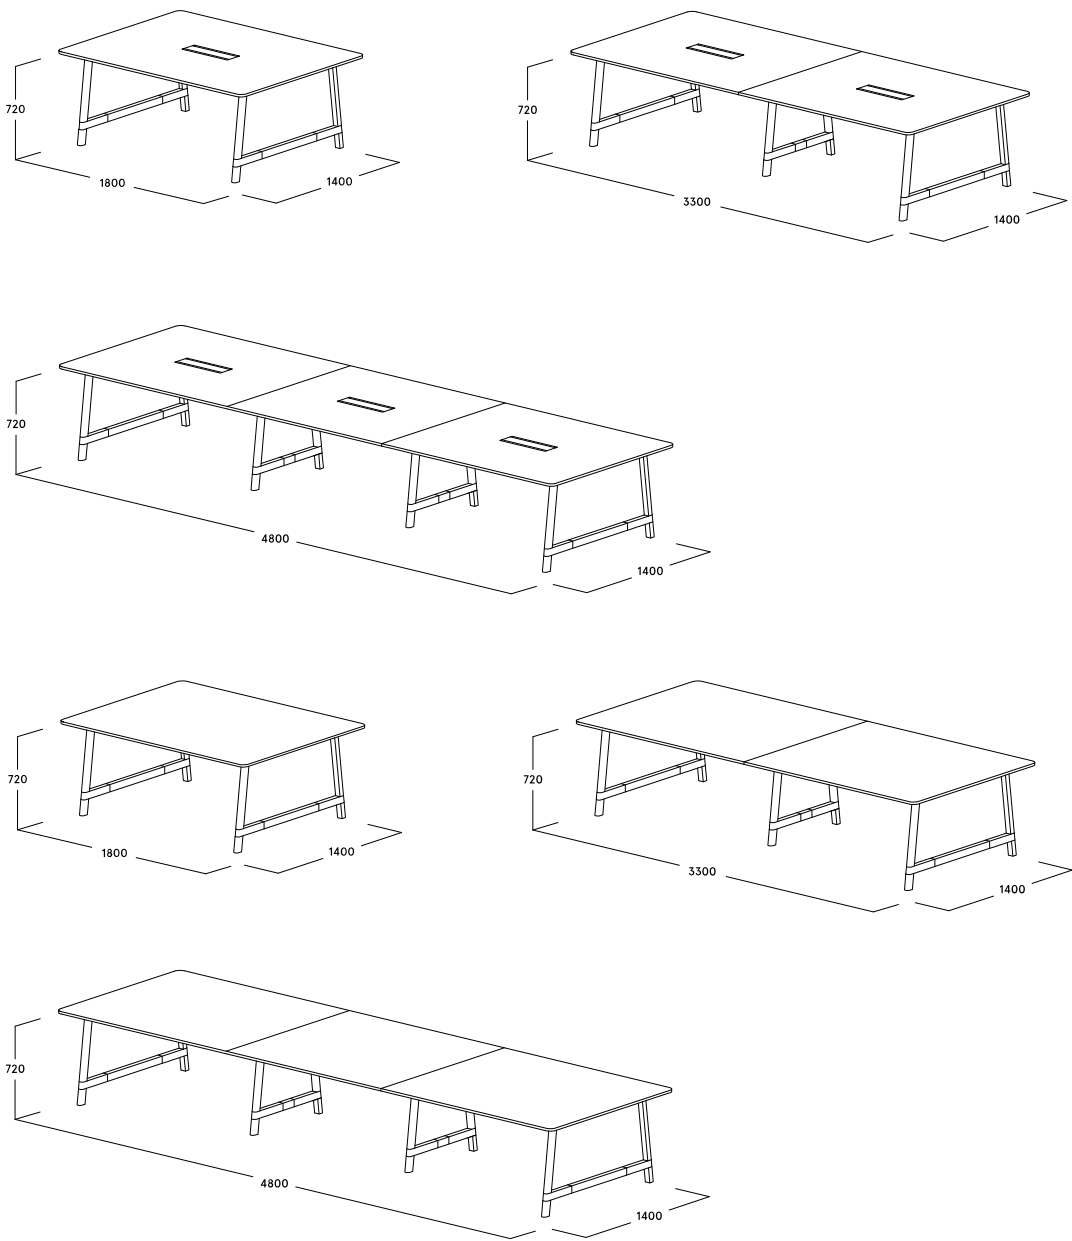

Flexible, communicatif et efficace dans les espaces ouverts Open Space: les solutions de bench permettent une utilisation optimale de l'espace dans les environnements de travail ouverts et donnent en même temps aux équipes la liberté de mouvement dont elles ont besoin pour un travail réussi. L'accouplement des tables en surfaces de travail spacieuses favorise l'échange d'informations dans le groupe, accélère les processus de coordination et permet l'intégration de nouveaux membres à tout moment.

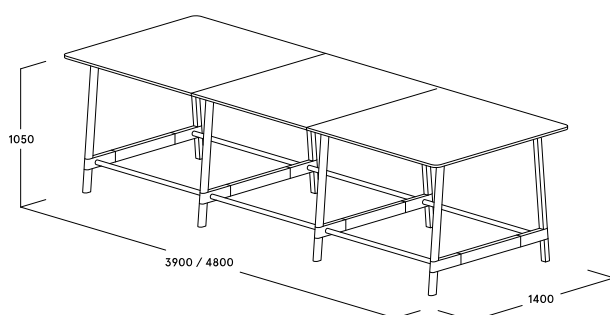

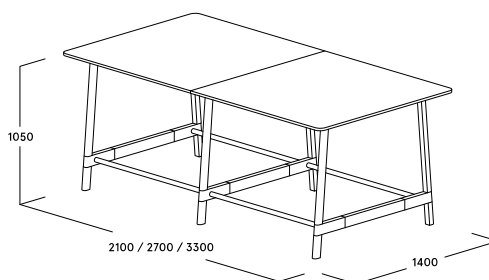

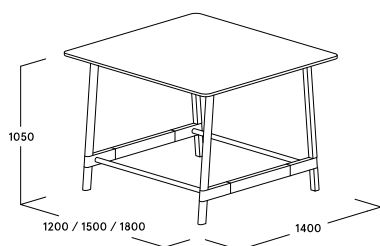

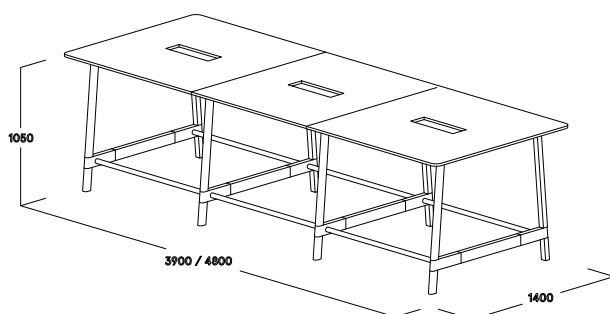

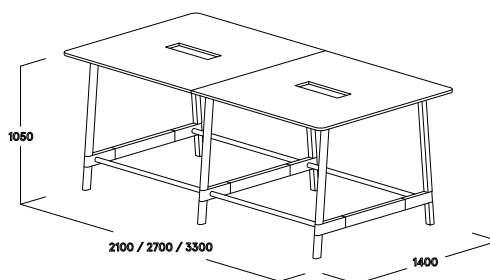

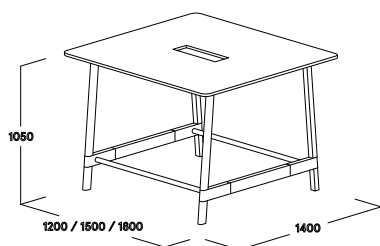

ophelis propose des bench dans différents programmes – **Reihe CN Duo, Reihe U4, Reihe Z** ou avec **ophelis docks**. Les solutions de bench peuvent être adaptées aux besoins changeants et offrent en même temps de l'espace pour plusieurs personnes, de sorte qu'une communication intensive et un travail concentré sont également possibles.

Dimensions

ophelis docka Bench

ophelis docks Benches hauts
